Thank you for your internet representation made on 23rd May 2020 which has been recorded as an objection with the comments as follows:

OWPC27178

The traffic is horrendous and trying to cross roads at Rose Green is already a challenge. The field behind floods and becomes a lake during the winter and that has happened every year since we lived here and some years have flooded our garden due to the water in the field . If this is allowed to go through and our property floods I will be coming to you for compensation . The wildlife in that field will be very affected and this winter we had swans using the field. There are bats, sloe worms and newts that live there and many bird species .

Your views as made above will be considered before the application is determined.
