Thank you for your internet representation made on 1st June 2020 which has been recorded as an objection with the comments as follows:

OWPC27385

The parcel of land in this planning proposal is acclaimed agricultural land, much needed to produce food for our growing population. The downside of this and many other fields around pagham is the high ground water rate. This parcel of land floods badly and with the weather increasingly become unstable it will continue to do so. Also where will mains drainage/sewage be pumped to? Pagham has a very small sewage plant and would definitely not cope with a major housing development. Pagham is a small village, the size of this proposal would have great impact on the local roads network which are primarily farming lanes, and already struggle with the amount of traffic, it is not a major road, and with no paths or walkways more land and habitat would lost with road widening. I strongly object to this planning proposal

Your views as made above will be considered before the application is determined.
