To Whomever this may concern

I am writing to register my objections to the proposed building work to the rear of "Jenna" in Nyetimber Lane.

Any building work to the area will add to the already existing stress that comes from a very busy road. Additional building in the area will also increase pre-existing traffic problems.

As I am sure you are aware the properties in the area are mainly single stories, the existing plan will mean we are overlooked. This will affect the saleability of our houses. The majority of residents in Nyetimber Lane are retired, building work as well as the intended results will be problematic for all of us.

In addition I believe that it is a legal requirement to inform existing residents of building plans. I live one house away and I have received no notification of this proposal. I was informed by my next door neighbour.

I look forward to hearing from you for an explanation.

Yours
