

REF P/25/18/PL – P)21 3JT

10th July 2018

Dear Andrew Wood

Supporting statement for proposed dwelling at Jenin, Nyetimber Lane, Pagham

I have been watching my application on the web link and see there is some concern regarding access for vehicles and lorries to the proposed plot, I would like to reassure that access for lorries or building contractors will be from the main road, as access will be made available via the existing double garage to 'Jenin' which will be removed for this purpose. If permission is granted for this project I am happy to make it a condition that construction vehicles will access the plot from the main road and not via Priors Way, this will hopefully eliminate concerns from neighbours regarding the fear of large vehicles passing by their driveways along this lane.

I hope that this will give some clarity to this objection.

With regard

Richard Barnett
