Dear Daun,

Many thanks for the reply. Yes the amended address is satisfactory.

With regards the surface water. The container is a second hand shipping container in a field so the rainwater will run off the edges of the roof onto the ground.

I hope that is sufficient information but if you need anything more please let me know.

Kind regards,

Andrew

Mr Knowles,

I just wanted to know where the surface water was going. Just a short sentence will do. I will be required to consult our engineering department and thought a statement (quick) would help them out.

Once I get the above I will be able to validate the application from today.

Thanks,

Daun

Dear Mrs Johnson,

Thank you for the email. Please find attached the completed CIL form and I agree to the revised site description.

Can you please clarify what you require for the Surface Water Drainage Statement.

I have checked the validation list. The site is not in the Lidsey Catchment area and proposal is not for 2 dwellings or more or a commercial building so is a statement required?

Kind regards,

Andrew Knowles
