Hi

we have had a tree surgeon look at the tree

The tree is roughly 18metre high and 12 metres across, we would like to reduce the height by 3m and the spread by 2m to suitable growth points. Also to check the general health of the tree including removal of dead wood and checking for cavities. By carrying out the work we will be controlling and maintaining the the future health of this urban tree, so it can be enjoyed for years to come. Possibly looking to maintain every 4-7 years. The reason for carrying out the work is to control the ever increasing shade issue for ourselves and our neighbours and to keep the tree at a manageable and safe size on a boundary. As the owner of the tree I feel it is our responsibility to maintain the size, safety and care for our Oak tree, also be respectful of our neighbours.

Kind regards

Michelle baker
