Dear Sir/Madam

Hook Lane P/30/19/OUT

I have many reasons to object to this application. These include but are not limited to:-

- 1 the sewers can not take any more & the sewerage company confirm this.
- 2 - Schools are already over subscribed.
- 3 Doctors/GPs. are at breaking point.
- 4 - traffic is almost out of control now this will increase it.
- 5 its been refused for good reason.
6. we live in a 'village' not a over crowded city!

KIND REGARDS

Paul Davis Prospective UKIP councillor.

Date:

Dear Sir/Madam

Hook Lane P/30/19/OUT

I must object to these plans to swamp Pagham and surrounding Burroughs as I complete lack of infrastructure to support such developments which common sense would tell you is the case. Our roads do NOT cope now and getting to Chichester is a very stressful experience when trying to get to an appointment etc.---

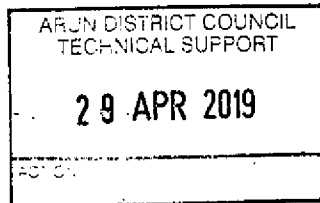

So I could go on with the lack of doctors, schools etc flooding, sewage, water supply and so on.---

I ask you to reject these plans.

Yours

Hook Lane P/30/19/OUT

The sewers cannot take any sewage but Southern Water cannot legally refuse connection. To Sewage works, already emptied raw sewage into the River Rife which empties into the sea our children bathe in.

We need to use our best agricultural land to grow our own crops to feed our own people.

The A27 problems impacts on the Pagham Road cannot take any more Traffic, None of this was taken into account when deciding these Strategic sites.

Cannot get to the Beach, cannot park locally along Pagham Rd, without sitting in Traffic JAM.

We choose to live in Pagham village

Want to enjoy countryside and Fresh air

The Countryside will be lost under concrete

Our way of Life will be change forever and the wild life

Signed

Hook Lane P/30/19/OUT

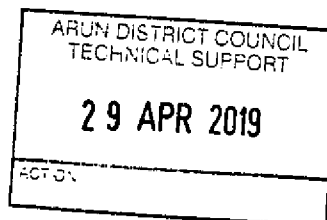

The building of these Houses on Hook Lane will have an enormous impact on the lives of people who already live in Pagham. Getting to the Doctors will become impossible the roads from Pagham into Chichester will be gridlock with extra air pollution from the extra cars. There's already a lot of traffic along this road with Barfoots & lorries driving along it 24 hours a day. We need to keep the fields for growing crops, once its built on there's no way in getting it Back!!

Dear Sir/Madam

Hook Lane P/30/19/OUT

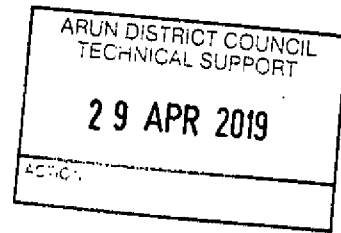

My main concern is We moved to a "VILLAGE" with farm lands. The Village can not cope with all these developments, the roads in and out of the "VILLAGE" are bad enough now. and the removal of Poyhams Ponies is appalling.

Dear Sir/Madam

Hook Lane P/30/19/OUT

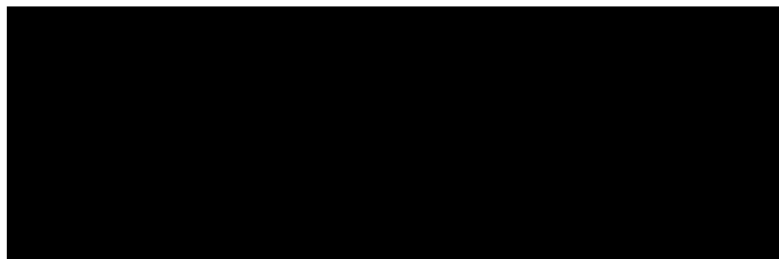

I object to anymore houses being built in Hook Lane Pagham. ~~and the area is already built up~~

Health. Local hospital & GPs are struggling with the current workload.

Local Schools are at capacity.
Water Tables are already high, further development will cause flooding.

Traffic. The narrow road are at all times busy and virtually at a standstill at peak times. 1 hour + journey time into Chichester.

Loss of Agricultural land. A large percentage of crops are grown in this area. Why loose this.

Dear Sir/Madam

Hook Lane P/30/19/OUT

As a resident living on Pagham Road for the last two years I have noticed the traffic has increased without there being another 400-500 houses being built. There has been no work done to already bad road conditions. I also feel sad that prime agricultural land is being built on in the light of the Brexit Plan there are plenty of other locations in the ~~area~~ area of arundel to build houses. This is a rural village there is no infrastructure to support this amount of housing where are the jobs schools doctors apart from all this the sewage system is sometime subject to overflow into the harbour.

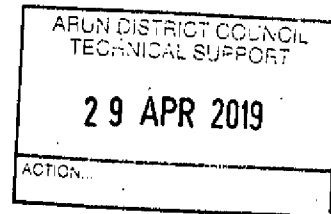

We feel the next meeting for planning
BE HELD AT PAGHAM VILLAGE HALL

Dear Sir/Madam

Hook Lane P/30/19/OUT

The sewers are unable to take any more as the Rife has already been taking the emptying from Southern Water.

We need fields for growing in the light of Brexit.

The Roads around pagam are already blocked up when there are problems on the A27 how many more car's can it take as 1 Road 1 R + 1 Road out.

Doctors surgery's are already overstressed how can they take on the next lot of people that this housing will bring.

We chose to live here as it is a village not a town as this will be from all this developments.

The meeting for planning should be held in PAGHAM VILLAGE HALL.

Hook Lane P/30/19/OUT

I object to the above for numerous reasons
some of which are.

- ① Increased noise & pollution in our VILLAGE
- ② Lack of infrastructure - sewage, roads, schools, doctors, hospital.
- ③ Ruin to Pagham Harbour - an area valued by people from a wide radius
- ④ Meetings re: planning should be local.
Many cannot get there to attend
in Littlehampton.
- ⑤ Barfots horses already take up $\frac{3}{4}$ of the road width!!
Yours faithfully

Date: 6/4/2019

Dear Sir/Madam

Hook Lane P/30/19/OUT

I wish to object to the above application

In 1999, the development was refused owing to the infrastructure, and nothing has changed since as the infrastructure has not been upgraded. Arun District threw it out because of traffic problems, for example, the proposed exit onto Pagham Road is ridiculous because traffic is already at capacity and will create more danger as would be other exits.

Extensive flooding of roads nearby have already occurred such as in 2012, and this problem can only be worsened

With the present population, the doctor's surgery is already insufficient, so how can they cope with many more people.

Even now, if one needs to go to A&E in Chichester, one may need to wait over 6 hours, so they are struggling to cope even now.

We need our best agriculture land to grow our own crops to feed our own people after leaving the EU. This area has one of the best climates and best land for growing crops in the country.

We wish for the appeal to be held in Pagham and opposed to Littlehampton, so more local people can attend.

Yours faithfully,

A large black rectangular box used to redact the signature of the sender.
