To Whom it may Concern.

I am writing to ask if you would not give permission to build on Farm land at hook lane it was refused once so why let it happen again after all the views and prints were already put across at meetings over the past 2 years, is this just a waste of time.

Also with Brexit at the moment we may need our farm lands to grow crops to support our own country, please find Brown land if you really need to build, we have already had over thousand houses built in this area in last 2 years, anymore and it will be hell on the roads, more pollution, more pressure on Doctors, Schools & emergency Services, also wear a tear on

our roads. plus the noise of traffic.
no way out to chichester its silly thinking
of building more houses in this area,
and we also know that once it starts
on that field it wont stop at just 300
homes, it will cover the rest of the field as
it did at North Bersted. 250 homes
they said, how many are on there now
well over a thousand more like
four thousand.

So Please Please think long and
hard about what you are doing
and save our farm land.

Thank you

Mrs Carol Heller
