To whom it may concern,

We wish to raise our objections, to the proposed planning application P/30/19 out Hook Lane. We have objected to any building on this field since 1999. Nothing has changed. Its still a Flood plain. We have more cars on Hook Lane now, especially when Church Farm is open. Hook Lane is just that a Lane which can't take the amount of traffic now. We have no bus facilities after 1pm & they only come every 2 hours. The Doctors Surgery is full to capacity with patients & can't get appointments Friday afternoon 2.30pm 9th in the call queue. Really! We have a shortage of doctors. We aren't near shops etc locally. We are what you call out in the Styx & that is how it was when we all moved here & how we wish it to remain. We have been informed by Southern Water that we are to cut down, so there certainly isn't enough water for 300 houses & a care home. The field is array of wild life from rare bats, to birds & foxes & Brent geese. I noticed on the planning picture there is a 'Downsview' well that is what our neighbours house is called, but it won't be if we are faced with all this housing. The majority of people that live here are elderly & retired. If we all wanted to live by a care home & an estate & school we wouldn't have moved here. We live here for the peace & quiet. As for the drainage nothing will stop the Flooding & the houses will be just as damp as most of the cars. There

are only 2 roads into chichester. When one is blocked for whatever reason the volume of traffic is huge. Extra cars will only make that worse. St Richards Hospital can barely cope with the amount of A+E patients & on the wards. I plead with you, please don't agree to this planning application & leave the people of Pagham, a little 'countryside' & village alone. We do not need this. So please take heed to this objection. PLEASE!!!!!!

Thank You in Anticipation
