28th April 2019

Dear Sir/Madam

I am writing to you to voice by absolute outrage that the fact the proposed Hook Lane housing development is yet again being considered.

The entire community is distressed and our way of life is under threat, not to mention the continued threat to the environment and nature. Why does nature always have to pay the price? I want to give the environment a chance and wish to voice my objection in the strongest terms. How much more can this small community be expected to endure?

300 new dwellings would introduce at least 405 vehicles to the already congested roads which is reinforced in the Transport Assessment.

The Transport Report highlights 84% of pupils arrive at school via private car, adding further to the congestions on our local network.

Pagham Road and Sefter road junctions are already hot spots for traffic incidents.

With plenty of other brown sites available, why is this council hell bent on sacrificing green field sites, destroying communities and allowing these developments which will have a disastrous impact on the small village.

We are a village. We live here because we embrace this and are trying to preserve this fragile way of life. I implore you not to let this happen.

Regards
