Land north of Hook Lane Pagham

---

Thank you for your internet representation made on 9th May 2019 which has been recorded as **'an objection'** with the comments as follows:

- *This proposal forms part of a combined plan for hundreds more new properties in the immediate area. Pagham is a relatively under resourced part of the Arun District, the scale of the combined proposed development is completely disproportionate. I believe that the Arun District Council should consider a more equitable spread of new properties over the entire district. There are alternative areas that might be considered, for example Ford, which is served by a better road network and a mainline station.*
- *The existing sewage facilities serving Pagham are barely adequate to cope with peak demand. Adding additional properties in the numbers proposed will stress the system, leading to increased risk of flooding at times of high rainfall.*
- *We understand that during the summer months the water pressure to Pagham consumers drops, suggesting that there is little margin for new consumers, adding additional properties in the numbers proposed will create greater demand on an already inadequate resources.*
- *There are a limited number of GP surgeries and current over subscription will be exacerbated by influx of thousands more residents.*
- *With the current uncertainty over future food supply caused by Brexit I believe it would be wildly irresponsible to commit prime agricultural land to housing developments.*
- *Like all NHS hospitals St Richard's performs a magnificent job, however significantly increasing the number of residents that will be dependent upon this hospital for A&E will result in more protracted delays in treatment.*
- *Lack of employment opportunities in the locale will inevitably result in any new residents commuting daily on the Pagham Road, and the B2166 which are already busy and dangerous, particularly during rush hour. These roads feed into the Chichester Southern Bypass which is always congested at any time of the day.*
