

6/5/19.

Ref. P/30/19/OUT

Ms. A. NAPTHING.

Ms. A. LUDLOW-MONK.

Dear Sir/Ms,

Canifer Way
Millfarm Estate
PO 21 3NQ.

I would like to strongly object to all the ^{NEW} buildings in the Pasham Area. If all this planning goes through we will be surrounded by large houses looming over us, just like the housing next to the Inglenook Pub. We are at Mill Farm Estate.

We moved here because of ill health, the views, the Wildlife, Pasham Harbour.

The variety of birds migrating onto the fields surrounding us.

The ^{Bio-}Diversity here in Pasham is worth preserving, once again once gone, will never be replaced.

Apart from this the traffic will be Maelham, not to mention the amounts of Pollution caused by extra traffic.

There are so many brown sites not GREEN (like Ford Market) or unused offices left empty for years, could be converted to Apartments.

Our local Doctor's Surgery
struggle now to give appointments
(can it cope with even more patients?),
As we are leaving the EU.
should we not be more
self sufficient with our
high grade soils for food.

This area is surrounded by
streams & known to flood,
We now have a Bund to
help with flooding at Mill Farm.

But with building on known
flood planes seems to be
reckless & how can our
sewage works cope!

The tide of Pagham can
be destructive, its known
to move onto the fields &
people's gardens & homes via
water courses.

We Love Pagham Village
Please DON'T DESTROY our
VILLAGE - Our Village is not a town.

Please listen to US!
