

4, Church Lane,  
Pagham PO21 4NS.

9<sup>th</sup> May, 2019.

Dear Sir,

**Planning Application P/30/19/OUT**

I write to object strongly to the above application. It does seem ludicrous that a developer can resubmit an application immediately after the original has been rejected by the local planning authority. My objections all relate to infrastructure. The lower Bognor Road is already over subscribed and resembles the M25 at peak times. There is no secondary school in Pagham, the existing infants and primary school are over subscribed. The local pumping station is already working to near capacity and regularly has discharged untreated sewerage into Pagham Rife. Too many new houses increases the risk of flooding. No local major source of employment. Over subscribed GP and dental practices. I, and hundreds of local residents, have told you all of this before in greater detail.

The local election results cannot have escaped your notice. The 2 conservative councillors in Pagham were swept away. This was not because of Brexit but because they, and planning officials, took no meaningful notice of local peoples views and comments about plans to build over a thousand new houses in Pagham. That anger and resentment remains in the village. I can only hope that the new administration will be more receptive to local views and objectively look at the overall planned housing situation in Pagham.

Yours faithfully,

A large, solid black rectangular box used to redact the signature of the sender.
