

Application for Outline Consent

**DECISION NOTICE**

Application Ref: P/30/19/OUT

**1 To Addressee**

LRM Plannig Ltd  
22 Cathedral Road  
Cardiff  
CF11 9LJ

**2 Site Address**

Land north of Hook Lane  
Pagham

**3 Description of Development**

Outline application with some matters reserved for the construction of up to 300 No. new homes, a care home of up to 80 beds, D1 uses of up to 4,000 sqm including a 2 form entry primary school, the formation of new means of access onto Hook Lane & Pagham Road, new pedestrian & cycle links, laying out of open space, new strategic landscaping, habitat creation, drainage features & associated ground works & infrastructure. This application may affect the setting of a listed building (resubmission following P/6/17/OUT).

**4** In pursuance of their powers under this Act and related Orders and Regulations the Council **PERMIT** this development to be carried out in accordance with the application and plans and subject to compliance with the following conditions and Section 106 Agreement.

- 1 The permission hereby granted is an outline permission under s92 of the Town and Country Planning Act 1990 (as amended) and an application for the approval of the Local Planning Authority to the following matters must be made not later than the expiration of 3 years beginning with the date of this permission:-

- (a) Layout;
- (b) Scale;
- (c) Appearance;
- (d) Landscaping.

Reason: To enable the Local Planning Authority to control the development in detail and to comply with Section 92 of the Town and Country Planning Act 1990 (as amended).

- 2 The development hereby permitted shall be begun before the expiration of 5 years from the date of this permission, or before the expiration of 2 years from the date of the approval of the last of the reserved matters to be approved, whichever is the later.

Reason: To enable the Local Planning Authority to control the development in detail and to comply with Section 92 of the Town and Country Planning Act 1990 (as amended).

- 3 The development hereby permitted shall be carried out in accordance with the following approved plans:

Red Line Boundary - 167/P/007 Rev C

Proposed Access Arrangement On Hook Lane (North) - JNY8840-09 Rev A

Proposed Access Arrangement Pagham Road - JNY8840-12 Rev A

Reason: For the avoidance of doubt and in the interests of amenity and the environment in accordance with policy D DM1 of the Arun Local Plan (2011-2031).

- 4 No development shall take place until a detailed scheme of phasing for the construction of the dwellings and associated highways and public areas has been submitted to and approved in writing by the Local Planning Authority. The scheme shall include a schedule identifying the order of commencement and completion within each phase of construction.

Reason: For the avoidance of doubt and in the interests of amenity and the environment in accordance with Policy D DM1 of the Arun Local Plan. It is considered necessary for this to be a pre-commencement condition because the phasing of the development needs to be satisfactory before work commences.

- 5 No development shall be carried out unless and until a schedule of materials and finishes to be used for external walls and roofs of the proposed buildings has been submitted to and approved by the Local Planning Authority. A 'statement of detail' shall be submitted setting out details of proposed windows and doors, details of the depth of recess/reveal from the brickwork, sills and lintels, brick bonding, brick detailing, eaves detailing and rainwater goods. The materials and 'statement of details' so approved shall be used in the construction of the buildings.

Reason: To enable the Local Planning Authority to control the development in details in the interests of amenity by endeavouring to achieve buildings of visual quality in accordance with Policy D DM1 of the Arun Local Plan. It is considered necessary for this to be a pre-commencement condition because the use of satisfactory external materials goes to the heart of the planning permission.

- 6 Prior to the submission of any reserved matters application for the housing phases identified by Condition 4 a design code masterplan shall be submitted to, and approved in writing, by the Local Planning Authority. This document shall demonstrate how the detailed proposals will reflect the objectives of the;

- Development Framework - 167/P/006 Rev E
- Landscape Masterplan - 167/P/003 Rev D
- Design and Access Statement - January 2017

The design code masterplan will provide further details on matters such as character areas, street hierarchy, building typologies, key buildings, the approach to car parking, structural planting, street furniture, lighting and treatment of the public realm. The development shall be carried out in accordance with the approved design code masterplan.

Reason: To enable the Local Planning Authority to control the development in details in the interests of amenity by endeavouring to achieve buildings of visual quality in accordance with Policy D DM1 of the Arun Local Plan.

- 7 The landscaping and layout particulars to be submitted in accordance with Condition 1 shall

include:

- i. Details of all existing trees and hedgerows on the land, showing which are to be retained and which removed;
- ii. Details of the positions, height, design, materials and type of boundary treatment to be provided;
- iii. Details of any proposed alterations in existing ground levels, and of the position of any proposed excavation, within the crown spread of any retained tree
- iv. The detailed hard and soft landscape design for the development including the layout and design of the public realm within the development;
- v. Details of the surfacing, lighting and signage of all footpaths, cycle routes and a phasing plan for their provision;

No hedge or tree shall be felled, uprooted or otherwise removed before, during or after the construction period except where removal is indicated on a plan approved by the Local Planning Authority.

Reason: In the interests of amenity and of the environment of the development in accordance with Policy ENV DM4 of the Arun Local Plan.

- 8 Landscaping (hard and soft) shall be carried out in accordance with the approved details. All planting, seeding or turfing comprised in the approved details shall be carried out in the first planting and seeding seasons following the first occupation of each phase or sub phase of the development hereby permitted or the completion of the development, whichever is the sooner, and any trees or plants which within a period of 5 years from the completion of the phase or sub-phase die, are removed or become seriously damaged or diseased, shall be replaced in the next planting season with others of similar size and species, unless the Local Planning Authority gives written consent to any variation.

Reason: In the interests of amenity and of the environment of the development in accordance with Policy D DM1 of the Arun Local Plan.

- 9 Prior to the commencement of the development an Arboricultural Method Statement and Tree Protection Plan shall be submitted to and approved in writing by the Local Planning Authority and the development shall be undertaken in strict accordance with the details so approved.

Reason: To ensure the retention and maintenance of trees and vegetation which are an important feature of the area in accordance with Policy D DM1 of the Arun Local Plan. It is considered necessary for this to be a pre-commencement condition as the protection and retention of trees goes to the heart of the planning permission.

- 10 Development shall not commence, other than works of site survey and investigation, until full details of the proposed surface water drainage scheme have been submitted to and approved in writing by the Local Planning Authority. The design should follow the hierarchy of preference for different types of surface water drainage disposal systems as set out in Approved Document H of the Building Regulations, and the recommendations of the SuDS Manual produced by CIRIA. Winter groundwater monitoring to establish highest annual ground water levels and winter Percolation testing to BRE 365, or similar approved, will be required to support the design of any Infiltration drainage. No building shall be occupied until the complete surface water drainage system serving the property has been implemented in accordance with the agreed details and the details so agreed shall be maintained in good working order in perpetuity.

Reason: To ensure that the proposed development is satisfactorily drained in accordance with policies W SP1, W DM1, W DM2 and W DM3 of the Arun Local Plan. This is required to be a pre-commencement condition because it is necessary to implement the surface water drainage

system prior to commencing any building works.

- 11 The development shall not proceed until details have been submitted to and approved in writing by the Local Planning Authority for any proposals: to discharge flows to watercourses; or for the culverting, diversion, infilling or obstruction of any watercourse on or adjacent to the site. Any discharge to a watercourse must be at a rate no greater than the pre-development run-off values. No construction is permitted, which will restrict current and future land owners from undertaking their riparian maintenance responsibilities in respect to any watercourse or culvert on or adjacent to the site.

Reason: To ensure that the proposed development is satisfactorily drained in accordance with policies W DM1, W DM2 and W DM3 of the Arun Local Plan. And to ensure that the duties and responsibilities, as required under the Land Drainage Act 1991, and amended by the Flood and Water Management Act 2010, can be fulfilled without additional impediment following the development completion. It is considered necessary for this to be a pre-commencement condition to protect existing watercourses prior to the construction commencing.

- 12 Development shall not commence until full details of the maintenance and management of the surface water drainage system is set out in a site-specific maintenance manual and submitted to, and approved in writing, by the Local Planning Authority. The manual is to include details of financial management and arrangements for the replacement of major components at the end of the manufacturer's recommended design life. Upon completed construction of the surface water drainage system, the owner or management company shall strictly adhere to and implement the recommendations contained within the manual.

Reason: To ensure that the proposed development is satisfactorily drained in accordance with policies W DM1, W DM2 and W DM3 of the Arun Local Plan. It is considered necessary for this to be a pre-commencement condition to ensure that the future maintenance and funding arrangements for the surface water disposal scheme are agreed before construction commences.

- 13 Immediately following implementation of the approved surface water drainage system and prior to occupation of any part of the development, the developer/applicant shall provide the local planning authority with as-built drawings of the implemented scheme together with a completion report prepared by an independent engineer that confirms that the scheme was built in accordance with the approved drawing/s and is fit for purpose. The scheme shall thereafter be maintained in perpetuity.

Reason : To ensure that the proposed development is satisfactorily drained in accordance with policies W SP1, W DM1, W DM2 and W DM3 of the Arun Local Plan.

- 14 Before the development hereby permitted is commenced, details of a proposed the foul drainage system shall be submitted to and approved in writing by the Local Planning Authority (including details of its siting, design and subsequent management/maintenance, if appropriate).

Occupation of the development is to be phased and implemented to align with the delivery by Southern Water of any sewerage network reinforcement required to ensure that waste water network capacity is available to adequately drain the development and no dwelling shall be occupied until works for the disposal of sewage have been fully implemented in accordance with the approved details of any phase or sub-phase.

Reason: To ensure adequate infrastructure is provided to enable the scheme to be satisfactorily drained and avoids adverse impacts upon the Pagham Harbour SPA/Ramsar in accordance with policies D DM1, W DM1, W SP1, ENV DM2 and H SP2a of the Arun Local Plan. It is considered necessary for this to be a pre-commencement condition as the foul drainage system goes to the heart of the planning permission.

- 15 Prior to the occupation of any dwelling of a particular phase, a scheme for external lighting shall be submitted and approved in writing by the Local Planning Authority. The scheme shall ensure that the lighting is sensitive to bats by minimising the lighting of the woodland along the southern and western boundaries and shall comply with Institution of Lighting Engineers Guidance Notes for the Reduction of Obtrusive Light, Obtrusive Light Limitations for Exterior Lighting Installations for Zone E3.

The scheme should also minimise potential impacts to any bats using the trees, hedgerows and buildings by avoiding unnecessary artificial light spill through the use of directional light sources and shielding and no lighting will be installed within the buffer zones and GI areas. The lighting approved shall be installed and shall be maintained in accordance with the approved details.

Reason: To control the residential amenities of the local environment in accordance with Policies D DM1 and QE DM2 of the Arun Local Plan.

- 16 Prior to the commencement of development, including any works of demolition, a Construction Management Plan shall be submitted for approval in writing by the Local Planning Authority. Thereafter the approved Plan shall be implemented and adhered to throughout the entire construction period. The Plan shall provide details as appropriate but not necessarily be restricted to the following matters:

- the anticipated number, frequency and types of vehicles used during construction,
- the method of access and routing of vehicles during construction,
- full details of the construction compound,
- soil resources plan,
- dust mitigation measures,
- noise reduction measures,
- the parking of vehicles by site operatives and visitors,
- the loading and unloading of plant, materials and waste,
- the storage of plant and materials used in construction of the development,
- the erection and maintenance of security hoarding,
- the provision of effective wheel washing facilities and other works required to mitigate the impact of construction upon the public highway (including the provision of temporary Traffic Regulation Orders),
- details of public engagement both prior to and during construction works.

Reason: In the interests of highway safety and the amenities of the area in accordance with Policy D DM1 of the Arun Local Plan. It is considered necessary for this to be a pre-commencement condition because of the safety and amenity issues that need to be addressed.

- 17 During the construction phase no machinery/vehicles or plant shall be operated on the site, no process shall be carried out and no deliveries taken at or despatched except between the hours of:

7.00 a.m. and 6.00 p.m. on Mondays to Fridays inclusive  
8.00 a.m. and 1.00 p.m. on Saturday  
Not at any time on Sundays or Public Holidays

Reason: In the interests of amenity in accordance with Policies D DM1 and QE DM1 of the Arun Local Plan.

- 18 No raw materials, finished or unfinished products or parts, crates, packing materials or waste shall be stacked or stored on the site except within the storage areas identified in the Construction Management Plan at any time approved by the Local Planning Authority.

Reason: To safeguard the amenities of neighbouring properties in accordance with Policy D DM1 of the Arun Local Plan.

- 19 Prior to commencement of development the applicant shall prepare and submit for approval an Employment and Skills Plan for the construction phase of development. Following approval of the Employment and Skills Plan the developer will implement and promote the objectives of the approved plan.

Reason: in accordance with Policy SKILLS SP1 of the Arun Local Plan. It is considered necessary for this to be a pre-commencement condition to as it relates to the construction phase of development.

- 20 No use within the phase of the development to be served from the Pagham Road access shall be first occupied until such time as the vehicular, pedestrian accesses and bus stop lay by have been constructed in accordance with the details shown on drawing no. JNY8840-12 Rev A and provided with visibility splays of 4.5 by 149 metres to the north and 152 metres to the south. Once provided the splays shall thereafter be maintained and kept free of all obstructions over a height of 0.6 metres above carriageway level or as otherwise agreed.

Reason: In the interests of amenity and to avoid unacceptable harm to highway safety in accordance with policy T SP1 of the Arun Local Plan.

- 21 No use within the phase of the development to be served from the Hook Lane access shall be first occupied until such time as the vehicular and pedestrian accesses have been constructed in accordance with the details shown on drawing no. JNY8840-09 Rev D and provided with visibility splays of 2.4 by 74 metres to the north and 77 metres to the south. Once provided the splays shall thereafter be maintained and kept free of all obstructions over a height of 0.6 metres above carriageway level or as otherwise agreed.

Reason: In the interests of amenity and to avoid unacceptable harm to highway safety in accordance with policy T SP1 of the Arun Local Plan.

- 22 No part of the development shall be first occupied until such time as the existing vehicular accesses onto Sefter Road and Pagham Road have been physically closed in accordance with plans and details submitted to and approved in writing by the Local Planning Authority. No existing access shall be used for construction purposes unless agreed as part of the construction management plan.

Reason: In the interests of amenity and to avoid unacceptable harm to highway safety in accordance with policy T SP1 of the Arun Local Plan.

- 23 No dwelling shall be first occupied until plans and details and a timetable for their installation showing the provision of real time information screens at the north and south bound bus stops on Pagham Road to the north of the Hook Lane Junction have been agreed in writing by the Local Planning Authority. The real time information screens once approved shall thereafter be implemented in accordance with the agreed details and timetable.

Reason: To promote and encourage sustainable transport to and from the proposed development in accordance with policy T DM1 of the Arun Local Plan.

- 24 No part of the development shall be first occupied until plans and details of the proposed pedestrian and cyclist access points have been submitted to and approved in writing by the Local Planning Authority. The approved access points shall thereafter be constructed in accordance with a phasing plan or timetable as may be agreed with the Local Planning Authority.

Reason: In the interests of highway safety and in accordance with policy T SP1 of the Arun Local Plan.

- 25 No part of the development shall be first occupied until a Travel Plan has been submitted to and approved in writing by the Local Planning Authority. The Travel Plan once approved shall thereafter be implemented as specified within the approved document. The Travel Plan shall be completed in accordance with the latest guidance and good practice documentation as published by the Department for Transport or as advised by the Highway Authority.

Reason: To encourage and promote sustainable transport in accordance with Policies D DM1 and T SP1 of the Arun Local Plan.

- 26 At least 10% of the total predicted energy requirements for the development (taking into account energy efficiency measures) will be generated through renewable or low carbon energy generation on site. The Local Planning Authority will consider 'allowable solutions' where it is clearly demonstrated that the provision of on-site renewable or low carbon energy generation is unviable or not feasible and where equivalent energy savings can be demonstrated.

Details and a timetable of how this is to be achieved for the development hereby approved, including details of physical works on site, shall be submitted to and approved in writing by the Local Planning Authority before development of the dwellings hereby approved commences. The development shall be implemented in accordance with the approved details and timetable and will be retained as operational thereafter, unless otherwise agreed in writing by the Local Planning Authority.

Reason: In order to secure on site renewable energy in accordance with national planning policy, in accordance with policy ECC SP2 of the Arun Local Plan. It is considered necessary for this to be a pre-commencement condition to ensure that the requisite infrastructure is designed into the housing development.

- 27 Prior to the commencement of development, a strategy for the provision or facilitation of broadband provision to future occupants of the site shall be submitted to and approved in writing by the Local Planning Authority. The strategy shall seek to ensure that upon occupation of a dwelling, either a landline or ducting to facilitate the provision of a broadband service to that dwelling from a site-wide network, is in place and provided as part of the initial highway works and in the construction of frontage thresholds to dwellings that abut the highway. Unless evidence is put forward and agreed in writing by the Local Planning Authority that technological advances for the provision of a broadband service for the majority of potential customers will no longer necessitate below ground infrastructure, the development of the site shall be carried out in accordance with the approved strategy.

Reason: To ensure that the needs of future residents to connect to the internet does not necessarily entail engineering works to an otherwise finished and high quality living environment in accordance with Policy TEL SP1 of the Arun Local Plan. It is considered necessary for this to be a pre-commencement condition because the provision of broadband needs to be incorporated into the design for the site.

- 28 No development shall take place until the applicant has secured the implementation of a programme of archaeological work in accordance with a written scheme of investigation which has been submitted by the applicant and approved in writing by the Local Planning Authority.

Reason: The site has the potential to contain unknown remains of archaeological importance therefore in accordance with Policies D DM1 and HER DM6 of the Arun Local Plan. It is considered necessary for this to be a pre-commencement condition because archaeology can only be investigated before construction commences.

- 29 Prior to the commencement of development details shall be submitted providing clarification as to how the existing hedgerows on site will be enhanced for use by bats. This shall include details of

a buffer strip around the hedgerows measuring 5m in width and details of fencing to be used during construction to ensure that this area is undisturbed. Details shall also be provided of additional planting to infill gaps in the existing hedgerow using native hedge species to improve connectivity. No hedgerow shall be removed or disturbed from hedgerows H1, H2 and H3 and an additional minimum 20 metres of additional hedgerow planting shall be undertaken on site due to the loss of small areas of hedgerow H4 (as identified on Appendix D 6932-E-AD within the Ecological Appraisal - Jan 2017). 'Hop overs' shall be provided adjacent to any hedgerow gaps greater than 7m wide to allow continued echolocation across the break.

Reason: In accordance with Policies ENV SP1 and ENV DM5 of the Arun Local Plan. It is considered that this condition must be pre-commencement to prevent harm to the sites biodiversity.

- 30 Prior to commencement of development an updated badger survey should be undertaken (if the survey submitted in support of the application is more than 12 months old) to ensure badgers are not using the site. If a badger sett is found onsite, Natural England should be consulted and a mitigation strategy produced and submitted to the Local Planning Authority for approval.

Reason: In accordance with Policies ENV SP1 and ENV DM5 of the Arun Local Plan. It is considered that this condition must be pre-commencement to prevent harm to potentially vulnerable species on site.

- 31 Any works to the trees or vegetation clearance on site should only be undertaken outside of the bird breeding season which takes place between 1st March - 1st October. If works are required during the bird breeding season an ecologist will undertake site surveys prior to any works taking place (within 24 hours of any work).

Reason: In accordance with Policies ENV SP1 and ENV DM5 of the Arun Local Plan. It is considered that this condition must be pre-commencement to prevent harm to potentially vulnerable species on site.

- 32 Prior to the commencement of development of any preparatory works an Ecological Protection & Enhancement Plan shall be submitted to and agreed in writing by the Council. The Plan shall be based on the mitigation measures proposed in Ecological Appraisal dated January 2017 prepared by FPCR Environment & Design Ltd and the correspondence from FPCR dated 20 April 2017 and will include a programme of ecological monitoring to inform the long term management of the site. The Ecological Protection & Enhancement Plan shall include a full mitigation strategy for Water Voles and Reptiles and a work programme with clear timelines for each mitigation measure to be carried out. The mitigation measures shall be implemented in accordance with the timescales set out in the agreed plan.

Reason: To ensure the protection and retention of biodiversity in accordance with Arun District Local Plan policy QE SP1. It is considered that this condition must be pre-commencement to prevent harm to potentially vulnerable species on site.

- 33 Prior to the commencement of development, an Electric Vehicle Charging Strategy will be prepared and submitted to the Local Planning Authority which identifies the nature, form and location of electric charging infrastructure to be provided across the development. The electric vehicle strategy shall then be implemented in accordance with the approved details.

Reason: New petrol and diesel cars/vans will not be sold beyond 2040, and to mitigate against any potential adverse impact of the development on local air quality, in accordance with Policy D DM1 and Policy QE DM3 (c) of the Arun Local Plan and the NPPF. It is considered necessary for this to be a pre-commencement condition to ensure that the requisite charging infrastructure is designed into the housing development and it is implemented.

- 34 At least 50% of the total number of dwellings shall be designed and constructed to m4(2) (accessible and adaptable) standard and an additional two units shall be constructed to m4(3) (wheelchair user dwellings) standard, for every 50 dwellings developed on the site, as defined by 'Access to and use of buildings: Approved Document M'.

Reason: To ensure that dwellings are adaptable and meet the needs of different groups in the community in accordance with policy H DM1 and D DM1 of the Arun Local Plan and Paragraph 61 of the NPPF.

INFORMATIVE: Statement pursuant to Article 35 of the Town and Country Planning (Development Management Procedure)(England) Order 2015. The Local Planning Authority has acted positively and proactively in determining this application by assessing the proposal against all material considerations, including planning policies and any representations that may have been received and subsequently determining to grant planning permission in accordance with the presumption in favour of sustainable development, as set out within the National Planning Policy Framework.

INFORMATIVE: The applicant should note that under Part 1 of the Wildlife and Countryside Act 1981, with only a few exceptions, it is an offence for any person to intentionally take, damage or destroy the nest of any wild birds while the nest is in use or being built. Birds nest between March and September and therefore removal of dense bushes, ivy or trees or parts of trees etc. during this period could lead to an offence under the act.

INFORMATIVE: This notice does not give authority to destroy or damage a bat roost or disturb a bat. Bat species are protected under Section 39 of the 1994 Conservation (Natural Habitats etc ) Regulations (as amended), the 1981 Wildlife and Countryside Act (as amended) and the 2000 Countryside and Rights of Way Act. It is illegal to damage or destroy any bat roost, whether occupied or not, or disturb or harm a bat. If you are aware that bats roost in a tree(s) for which work is planned, you should take further advice from Natural England (via the Bat Conservation Trust on 0845 1300228) or an ecological consultant before you start. If bats are discovered during the work, you must stop immediately and contact Natural England before continuing.

INFORMATIVE: Infiltration rates for soakage structures are to be based on percolation tests undertaken in the winter period and at the location and depth of the proposed structures. The percolation tests must be carried out in accordance with BRE365, CIRIA R156 or a similar approved method and cater for the 1 in 10 year storm between the invert of the entry pipe to the soakaway, and the base of the structure. It must also have provision to ensure that there is capacity in the system to contain below ground level the 1 in 100 year event plus 40% on stored volumes, as an allowance for climate change. Adequate freeboard must be provided between the base of the soakaway structure and the highest recorded annual groundwater level identified in that location. Any SuDS or soakaway design must include adequate groundwater monitoring data to determine the highest winter groundwater table in support of the design. The applicant is advised to discuss the extent of groundwater monitoring with the Council's Engineers.

Supplementary guidance notes regarding surface water drainage are located here <https://www.arun.gov.uk/surfacewater> on Arun District Councils website. A surface water drainage checklist is available here <https://www.arun.gov.uk/drainagechecklist> on Arun District Councils website, this should be submitted with a Discharge of Conditions Application.

INFORMATIVE: Under Section 23 of the Land Drainage Act 1991 Land Drainage Consent must be sought from the Lead Local Flood Authority (West Sussex County Council), or its agent (Arun District Council [land.drainage@arun.gov.uk](mailto:land.drainage@arun.gov.uk)), prior to starting any works (temporary or permanent) that affect the flow of water in an ordinary watercourse. Such works may include culverting, channel diversion, discharge of flows, connections, headwalls and the installation of trash screens.

The development layout must take account of any existing watercourses (open or culverted) to ensure that future access for maintenance is not restricted. No development is permitted within 3m of the bank of an ordinary watercourse, or 3m of a culverted ordinary watercourse.

INFORMATIVE: If during construction works, it becomes apparent that implementation cannot be carried in accordance with previously agreed details any resubmission of the drainage design must be accompanied by an updated copy of the management manual.

Neil Crowther  
Group Head of Planning

Case Officer: Mr D Easton

Decision Issued: **2nd September 2019**

Arun District Council  
The Arun Civic Centre  
Maltravers Road  
Littlehampton  
West Sussex BN17 5LF

**IT IS IMPORTANT THAT YOU READ THE NOTES ATTACHED TO THIS DOCUMENT**

## APPEALS TO THE SECRETARY OF STATE

If you are aggrieved by the decision of your local planning authority to refuse permission for the proposed development or to grant it subject to conditions, then you can appeal to the Secretary of State under section 78 of the Town and Country Planning Act 1990.

If this is a decision on a planning application relating to the same or substantially the same land and development as is already the subject of an enforcement notice, and you want to appeal against this planning application decision, then you must do so within 28 days of the date of this notice.

If an enforcement notice is served relating to the same or substantially the same land and development as in your application and you want to appeal against this planning application decision, then you must do so within 28 days of the date of service of the enforcement notice, or within 12 weeks of the date of this notice, whichever period expires earlier.

Otherwise, if you want to appeal against this decision then you must do so within 6 months of the date of this notice.

Appeals must be using a form which you can get from the Secretary of State at Temple Quay House, 2 The Square, Temple Quay, Bristol BS1 6PN (Tel: 0303 444 5000) or online at <http://acp.planninginspectorate.gov.uk>

The Secretary of State can allow a longer period for giving notice of an appeal but will not normally be prepared to use this power unless there are special circumstances which excuse the delay in giving notice of appeal.

The Secretary of State need not consider an appeal if it seems to the Secretary of State that the local planning authority could not have granted planning permission for the proposed development or could not have granted it without the conditions they imposed, having regard to the statutory requirements, to the provisions of any development order and to any directions given under a development order.

## PURCHASE NOTICES

If either the local planning authority or the Secretary of State refused permission to develop land or grants it subject to conditions, the owner may claim that he can neither put the land to a reasonably beneficial use in its existing state nor render the land capable of a reasonably beneficial use by the carrying out of any development which has been or would be permitted.

In these circumstances, the owner may serve a purchase notice on the Council (that is, where the land is situated in a National Park, the National Park authority for the Park, or in any other case the district council in whose area the land is situated). This notice will require the Council to purchase the owner's interest in the land in accordance with the provisions of Chapter 1 of Part VI of the Town & Country Planning Act 1990.

Please note that this decision notice only relates to matters under the Planning Acts and does not give consent under any other legislation that may apply to the development. You will need to carry out your own checks to determine whether any other consents or permissions are required. For example, the Building Regulations are likely to apply to most developments, and a Highways Licence may be required from West Sussex County Council for any development within the public highway (including the placing of skips on highway land).
