Good afternoon Simon,

Our engineers are working through the attached comments this week and the aim is to send you the updated drawings by the end of the week.

Regards

Peter Drury

Good afternoon Simon,

I appreciate that you are under pressure to push through applications which is of course welcome, but 2 weeks to update all of the drawings following the attached lengthy comments may be a little tight bearing in mind some individuals are on Furlough but we will see what we can do.

I trust you wont simply issue a refusal without speaking to me first to see what can be done?

Regards

Peter Drury

Dear Peter,

I appreciate the delay in our drainage engineer responding to the consultation however, we are under pressure not to have applications hanging around longer than the standard expiry date. Please see what you can do but advise if you think you need longer.

Kind Regards

Good afternoon Simon,

Thank you for passing on the attached comments.

I have asked our engineer to review and come back to me regarding timescales.

The DoC applications were submitted on the 20th March and comments have only just been received so can I ask why the updated drawings need to be issued back to you within 2 weeks? I am conscious that due to the current situation surrounding COVID-19 some individuals are on Furlough so 2 weeks may be a little tight.

Regards

Dear Peter,

Please see attached objections from our Drainage Engineers re conditions 10 & 11 on P/35/20/DOC and condition 3 on P/37/20/DOC.

Are you able to provide amended/additional documents back in two weeks? If not then we may have to refuse to discharge these conditions?

Kind Regards
