Daun et al

Further to my last below to which I have received no reply I now attach the submitted plan with North point added as requested.

Please validate the application with a 13 week determination period starting the day after it was received by ADC as the application should not have been held invalid for the reason stated in your letter as I stated in my e mail below.

Thank you

Daun et al

Thank you for wasting your time and mine by sending me the attached letter.

The submitted plan is an OS Plan and as with all OS Plans the North Point is always vertically orientated and points to the top of the plan and to withhold validation for the sole reason that the plan lacks a symbol on the plan explicitly saying so is unreasonable and ridiculous. However if it helps to make you feel better please take this e mail as my authority for you to draw such a symbol on the submitted plan,

More importantly you do not have my authority to add the following sentence *This application is in part a Departure from the Development Plan, affects a Public Right of Way & is in CIL Zone 5 (Zero Rated)* to the description of the development we provided. The description we provided is accurate and the additional description you wish to add is not. (See PPG Paragraph: 046 Reference ID: 14-046-20140306 Revision date: 06 03 2014).

The application with the description we provided was valid as submitted and the 13 week determination period runs from the day after it was submitted i.e., 9 March 2021 so can I suggest that you stop faffing around and get on with it.
