Dear Mr Davis

My apologies for writing again, but I thought you would like to see a photo that shows how the proposed site is being squeezed between the residents. This photo from google earth clearly shows how close the site is.

Red = Proposed Site Green = Residents homes

I would also like to check, though you have probably already asked Roundstones - How long is their Season?. You see, we have lived here for many years, in fact before them, and we regularly attend the End of Season party - 6th July last year. In previous years, they have had an end of Season plant sale at a similar time, where the roads became jam packed, which I believe they stopped for this very reason.

I am querying the length of their season, as under permitted development they are only allowed to home **their** workers during this time period. Therefore if their season was only 5 months long, then the reality of

their application is not for a further two month extension to leave the mobile homes there, but in fact for an extra 7 months after season end. This does not seem right?

Of course it could be that the truth is, this site is for seasonal workers for the farms and nurseries elsewhere, that grow other crops at other times of the year in the surrounding are, and this proposed site is simply a pool of staff to facilitate this. Again, surely this is not within their permitted development rights?

We spoke to another local nursery owner who has assured us that it is impossible for them to employ that many staff and that as I have said before, Roundstones is incredibly automated, (as seen on TV, and we have seen this for ourselves).

I am sorry to be sending my objections in different letters, but as I discover more I feel I have to contact you.

I look forward to your response.

Yours sincerely

Abi Hudlass
