Dear Sir/Madam

I am writing to you to voice by absolute outrage about the planning application that is currently being sought for the use of caravan dwellings. This has been given no publicity which makes the community feel that yet again we are being ridden rough shod over and that those involved are determined to get this through by the back door.

The entire community is distressed and our way of life is under threat yet again, not to mention the continued threat to the environment and nature. Why does nature always have to pay the price? I want to give the environment a chance and wish to voice my objection in the strongest terms. How much more can this small community be expected to endure?

How can this application for these caravan dwellings even be considered. The land in question is totally unsuitable, this simply can not be permitted to go ahead. The access into that area is notorious for accidents, it would be catastrophic for commuters and residents alike.

We are a village. We live here because we embrace this and are trying to preserve this fragile way of life. I implore you not to let this happen.

Regards

Mr Jonathan Fridlington
