Dear Mr Davis,

I object to all aspects of this application in absolute terms. This matter must be referred to the Development Control Committee for determination on the grounds of local sensitivity to the proposals and the complexity of legal issues surrounding this application.

Schedule 1 of the Caravan Sites and Control of Development Act 1960 states at subsection 7 that "Subject to the provisions of paragraph 13 of this Schedule, a site licence shall not be required for the use as a caravan site of agricultural land for the accommodation **during a particular season** of a person or persons **employed in farming operations on land in the same occupation.**"

In the applicant's design and access statement they themselves admit to supplying seasonal worker to 11 sites over the south coast and whilst the applicant is keen to attempt to 'prove'

in their statement that *“the application does not seek approval for the provision of seasonal workers accommodation (permitted development) only seeking approval to facilitate the retention of the seasonal workers accommodation on site while not in occupation (out of season)”* I submit that, in any event, the application fails to meet any one of the four criteria under the Town and Country Planning (General Permitted Development) (England) Order 2005 Schedule 2 Part 5 Class A.

Indeed, this is a question rightly raised by you, Mr Davis, on 20 May 2019 *“I would appreciate your comments on where the workers will be working and the % of time that they will be working on land at Newlands/Roundstone Nursery as opposed to being based elsewhere”* and a response is yet to be received from the applicant addressing these very valid points.

Accordingly, and in the absence of any development, the current application for year-round retention is considered invalid and should be withdrawn by the applicant.

In the event that the applicant fails to withdraw their application, Arun District Council should refuse this application without delay due to the following:

-

Design and Access Statement

The applicant’s design and access statement is economical with the truth, to say the least:

1. *“The existing caravan site is well screened in the landscape”* there is no existing caravan site save for on the land owned by David Langmead and the caravans will undoubtedly be seen from the farm track as the landscape provides little if any effective screening, especially in the winter months. There are large gaps in the hedgerow and the greenhouses can clearly be seen. I attach photos which prove the caravans will clearly be seen from my front door step.
2. *“The site is also close to Runcton, with access to cycle routes bus stops and other services.”* The access to these cycle routes, bus stops and other services are only via Pagham Road – B2166. This road is well known for accidents, particularly on the s bends from which Roundstone Nursery is accessed from the highway and has recently been resurfaced in an attempt to reduce the amount of accidents. There is no pavement and little verge for pedestrians to walk along let alone 186. Here are some links to recent tragedies on the very s bends mentioned above, the latest being on 19 May 2019:

 - e. <https://www.theargus.co.uk/news/8744345.bognor-man-70-dies-in-road-crash/>

3. “*Occupied on a seasonal basis*” – please explain how 12 months of the year seasonal? I quote from the recent Hall Hunter Partnership case “[...] nine-to-ten months [...] By any reasonable interpretation of the language, it would be too broad a period within a year to compromise a particular season.”
4. “*350 seasonal workers over 11 sites*” – how many work on the site the application is made on (i.e. Roundstone Nursery)? Who owns the other 10 sites?
5. “*Ongoing success of the farm business*” or of Pro Force Recruitment? Pro Force Limited is a seasonal workers recruitment company which lists Pebble Management Services Limited as a person with significant control. I attach a copy of the title to Roundstone Nursery which shows the registered proprietor as being Pebble Management Services Limited and the title plan highlighting just how close these units will be to our homes.
6. The applicant’s design and access statement states that their parent group also owns Newlands Nursery. I attach a copy of the title for Newlands Nursery which shows clearly it is not.
7. The site in Bracklesham bay certainly did not have a “*substantial amount of public support.*” I know from close friends and family who live in the vicinity of this site that they felt intimidated and a petition against received over 2000 signatures.

The Site

The site sits directly in the middle of two housing settlements as close as 50 metres to one home.

The site is small and to consider placing 31 units, 186 people meaning 6 adults per unit would be unfathomable and unhygienic. Is this considered “appropriate expansion”? And please explain using the caravan floor plan how you reasonably expect to provide sleeping arrangements for 6 adults per unit.

The layout of the units leaves no space for additional landscaping to hide the caravans from sight.

The site lacks infrastructure – there are currently no facilities or utilities. The applicant mentions a new sewerage system but there is no provision detailed on the plans. This site is a flood risk, there is potential that this area could become polluted with raw sewerage which would flow into Pagham Rife a habitat for wildlife which is in abundance.

The private single farm track cannot cope with any additional vehicle or pedestrian traffic and whilst the public footpath may or may not be proposed as the access to the highway from the site (we don’t know as the applicant hasn’t provided such vital information), rest assured the workers will use it as they do currently. The farm track is used by heavy farm machinery and is already dangerous with the current number of pedestrians.

We know from experience that the seasonal workers create noise and light pollution, litter in the ditches (see attached photo) and often ignore the regulations placed upon them creating security concerns for us residents.

South Downs Holiday Park in Bracklesham Bay has infrastructure to cope with that number of seasonal workers including good road links, bus routes, local convenience stores and pavements leading directly from the site to the above-mentioned amenities. The site at Roundstone lacks all of the above.

I note that there have been no surveys carried out to ascertain whether any wildlife such as bats, owls, breeding birds, badgers etc are roosting on the site. I know with confidence that breeding birds including owls and other birds of prey occupy the trees both on and surrounding the site. I am astounded that no consideration has been given to this by the applicant particularly when the area in question has previously been designated as an area for wild plants and wildlife.

The applicant has behaved in an underhand manner and certainly not in line with NFU policy. Please could you confirm the date the notice was first displayed, the reason why it was removed and by who (i.e. Arun District Council or not?) and the date it was replaced? Residents have been left very upset by the lack of notice or consideration for their community by the applicant making this application and without their consideration.

This site is quite clearly an accommodation hub for seasonal workers employed by Pro-Force Limited who will be bused to the other sites along the south coast rather than being for seasonal workers working on the land at Roundstone Nursery a largely automated site.

If this application is passed it will for me ruin my family home and my children's ability to enjoy the garden and our beautiful surroundings carefree.

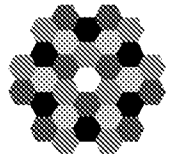

We, the residents, hope you are able to make the right decision in rejecting this application.

Yours sincerely

Liam Creighton
