Subject: P/40/20/DOC

P/40/20/DOC

Approval of details reserved by condition imposed under ref P/134/16/OUT relating to Condition Nos 9 - arboricultural method statement, 15 - ecology, 20 - employment & skills plan, 28 - energy conservation, 30 - archaeological, 32 - noise, 33 - electric vehicle charging and 34 - retention of WW2 Infantry section post

Condition 34 requires that a statement shall be submitted which will provide details of how the WW2 Infantry Section Post will be retained on site and integrated as part of the proposals. This is to be submitted prior to the commencement of development.

The current application includes a written scheme of Investigation for an Archaeological Evaluation and Historic Building recording, which only sets out how the building is to be recorded. However, it is noted that paragraph 3.2 of the document states that the aim of the historic building recording is to create a record of the infantry section post as existing, prior to any future refurbishment work, so that the latter is fully informed by an understanding of the historic fabric.

Therefore, at present, it is considered that the written scheme of investigation for the recording of the pillbox offers an acceptable first stage in the production of an appropriate programme for the structure's retention and interpretation.
