Concrete slab construction
See drawing 23995-501 for details

HB2 kerb

Concrete Slab Joints:

LJ

Longitudinal joint

EJ

Expansion joint

CJ

Contraction joint

See drawing 23995-501 for details

The drawing is a detailed site layout for a concrete slab and surface finishes. It shows a large rectangular area divided into sections by longitudinal joints (LJ), expansion joints (EJ), and contraction joints (CJ). The area is surrounded by a green boundary, likely representing a kerb or edge. Dimensions are provided for various sections, including 4,000, 4,500, 5,000, 5,500, 6,000, 6,500, 7,000, and 7,500. A north arrow is located in the bottom right corner, and a scale bar indicates distances from 0 to 10m. The drawing also includes a key for the joints and a general notes section.

GENERAL NOTES:

1. All dimensions to be checked on site. All details and dimensions relating to sub-Contractors work must be checked and agreed between the sub-Contractor or supplier and the general Contractor.
2. This drawing is to be read in conjunction with all relevant Architect's and Engineer's drawings and specification.
3. The main Contractor is responsible for ensuring the stability of the structure whilst the works are in progress.
4. Any information given regarding existing underground services is given in good faith after consultation with the relevant authority. No liability is accepted by the Consultant and the main Contractor is responsible for obtaining and checking all information and taking due care and attention whilst undertaking the works.
