Dear sir/madam

Further to attending this evening's meeting of Pagham PC Planning Committee, we have the following additional points to make in support of our previously stated objections to the proposal to build 6 new dwellings behind the Inglenook Hotel (ref P/4/25/PL).

1. Impact of insufficient parking provision - we heard from councillors that there is insufficient car parking provided within the planning proposals for the proposed dwellings with likely impacts on the site overall.
2. Impact on the bio diversity of the site - we learnt that there is no plan in place within the planning proposal submission to compensate for the impact on the bio diversity net gain requirement.
3. Impact on the mature trees across the site - we learnt that some of the trees have TPO's and will require protection were the development to proceed. There is a threat to the roots of those trees close to the boundaries of some of the proposed dwellings.
4. Impact on existing drainage and flood protection arrangements serving Platinum Gardens - access will be required and agreement sought to access the provision serving Platinum Gardens; and in so doing assurance sought and proper provision made to ensure that the existing drainage and protection arrangements can safely and securely support the proposed new development.

Finally, given the extent of the relentless house building engulfing Pagham it is difficult to understand the requirement and benefit of a further six additional houses (which don't meet any social housing needs), built in a confined space, a space rich in bio diversity which if built upon would be lost forever to current and future generations.

Your views as made above will be considered before the application is determined.
