Sir/Madam

Reference the above planning application. I would like to bring the following to your attention and complain in the strongest terms about how this application is being handled.

Firstly the planning system is, as far as we are aware, supposed to be transparent with all communication from all parties displayed with all the documents on your website. This is clearly not the case as there has been communication between you and the applicant reference his amended plans and none of these communications are displayed on the application with the other correspondence, objections and plans.

Secondly, there have been new (slightly) revised plans submitted after the deadline.....too late for us to object to. How can he be allowed to change the plans after the time we are allowed to object? We and the Parish council were not allowed to object after this date...and because the Parish Council's unanimous objection was not allowed to count (and was slightly late due to no fault of the residents) this meant the decision on whether to grant the planning permission or not now falls to one planning officer rather than the planning committee....and we all feel that a decision as important as this one...one that could potentially change the whole look of our area if other residents follow suit.....should not be down to the view of one person.

Thirdly, we are now a month after the original decision date...we all have to abide by these dates....how come the planning office does not?

I forward to your reply. The very least I would hope for is all the correspondence being in the correct place on the application page and a date by which we can expect a decision. I'm aware it's just another planning application to you but it's very important to the residents of this part of Pagham.

Dean J Buck.
