7th July 2013.

Reference Planning Application P/51/13.

For 9, Shirley Close, Pagham.

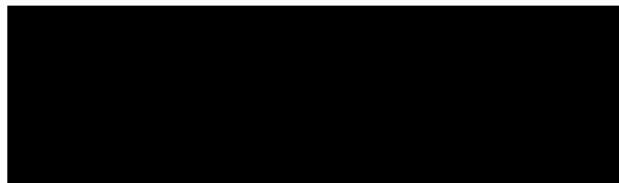

Dear Mrs Chapman,

Regarding the above planning application, I would like to ask that the new replacement garage should have a flat roof of similar height to the existing garage, and not the high pitch roof shown on the applicants drawings.

The original garage has an overall height of about 2.13 metres, whilst the new garage appears to have a height to the roof peak of 3.66 metres. Not only will this increase of over 1.5 metres (or nearly 5 feet) have a great visual impact, but it will also noticeably reduce the amount of winter sun reaching my home and garden.

When considered along with the large proposed extension to the existing bungalow, I trust my request for the new garage roof to be lower will seem very fair and reasonable.

Yours sincerely,

D. F. Salter.
