Dear Nicola Moore, thanks for your response, I don't understand why you do not get the scans at the correct size but gather from other agents that this seems to apply to Arun and not others. Why I don't know but in order to get around this I am printing the drawings and I will drop them into your Littlehampton office later. I hope you can then receive them. Meanwhile when my computer advisor gets back to me later today I will try to find the reason for this difficulty. Please confirm that this arrangement will be acceptable this time.

Regards, Graham Nicolls

Good Afternoon Mr Nicolls

I have had another look at the plans, and they don't scale correctly.

Could you please try sending them again to me as a PDF and set the 'page size', and 'sheet size' to 'Auto'.

Many Thanks

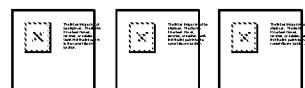

Nicky

Dear Nicola Moore, I have received your email dated 12 June regarding the above application. I have added dimensions to the site plan and will send the revised drawing as soon as I have discussed the plan scale matter you have raised.

I have checked each drawing and can find no discrepancy between the scale bar on the drawings and the actual dimensions. All drawings are to scale if printed at A4 size, all drawings are at 1:100 scale except the section which is at 1:50. I have noticed that the Site/Location plan did not have a scaler bar so I have added that and will send the revised version of this also.

Please can you look at this again and let me know where you believe there is an error.

Kind regards, Graham Nicolls
