

25th July 2017

86 Harbour Road
Pagham Beach
PO21 4TD

Dear Arun District Council Planning Department,

P/54/17/PL

I write as regards this planning which Bourne Leisure Limited has submitted to you.

During the times of the year that this Holiday Village is open we have nothing but noise from the site. We did manage to stop the helicopter flights that were coming over our bungalow every ten minutes, also on numerous occasions I have had to phone Church Farm to ask them to turn the noise down that is coming from car radios over there, also the megaphone that they persist in using when having a sing song on Sunday mornings, as well as the shows that they have for the holiday makers, these are very loud as well.

Considering this is a Nature Reserve I don't think this should be happening, the residents here have to be very careful in what happens, because of it being a reserve.

Not so long ago when we had the awful rain when Church Farm was flooded, they put a pipe into the Lagoon, which obviously was draining water off of the holiday village, when the Lagoon dried out in the summer by the bridge to the eastern end of the Lagoon was blue mud, which was obviously from the toilets etc.

We also as residents of Pagham have to have Doctors appointments which is a struggle to get when Church Farm is open, this community cannot cope with all the extra holiday makers which have to use the Doctors.

Quite honesty when the 31st October comes, we are all very thankful that the site closes down to March 1st.

I am against this Holiday Village being open for an extra month.

Yours sincerely,
