Subject: P/58/15/OUT - field flooding .

Good afternoon Mr Davis .

Please find attached photos taken from my the windows of my home.
The photos show the field where homes are proposed under P/58/15/OUT.

As you can see the field is becoming saturated already with the water we have had recently.

I wanted to highlight this to you, if the proposal P/58/15/OUT goes ahead the homes that go onto this land potentially will be built with a risk of flooding. If the homes do indeed go ahead on this site , there is even a risk of moving the natural flood plan on this land to the homes that already surround this area.

With what we have all seen in the press and news over Christmas with flooding taking place I wanted to bring this to your attention.

I again would like to say that **I am against this planning application.**

Regards

Richard Forward .
