To whom it may concern,

I would like to object to the proposed building of homes behind the Inglenook. My reasons are that you are not taking into consideration the homes on Millfarm, this is going to have a massive impact on the the homes that back onto the Inglenook Paddock.

Anyone with an ounce of common sense will see that the light to there property's is going to be shaded. So before you start thinking of giving in again to the building in Pagham of these tall buildings have a thought for people living in the Millfarm estate you also need to think how the traffic is going to get out onto the Pagham road because if you feel that having another junction close to another is safe then you don't know anything about road safety.
