Subject: RE: Further Information Required on Your Ref: PP-07958685 Our Ref: P/59/19/HH

Dear Sian,

Thank you so much for all your help with registering our application number P/59/19/HH, 10 East Front Road, Pagham. Sorry that we did not address the flood issues and I hope that as suggested the couple of lines below will clarify that we do not intend to worsen the potential for flooding by the addition of our proposed front extension:

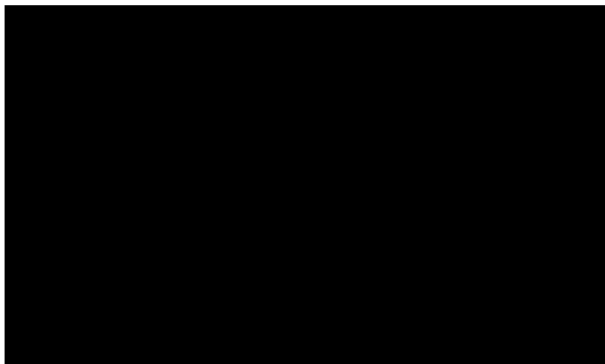

'We can confirm that the floor levels in our proposed front extension won't drop below the current dwellings and that the applicant will take into considerations flood protection defences when building the proposal.'

Please let us know if you would like any further clarification of the flood protection defences we would propose and we will get you across a more comprehensive answer.

I hope that the application is now correct and look forward to receiving confirmation that it is valid.

Kind regards,

Simon

Dear Simon

Thank you for your email, however upon uploading the application a constraint of being in flood zone 2 + 3 has pulled through. Please can you write a short statement (a line or 2) via email just stating the floor levels wont drop below the current dwellings and that the applicant will take into considerations flood protection defences when building the proposal.

Kind Regards
Sian
