

Summer Fields, Pagham
Electric Vehicle Charging Point Allocation

Plot	Garage / Driveway	EV charging point type
1	Garage	Active point in garage
2	Driveway	Active point located on driveway
3	Driveway	Active point located on driveway
4	Garage	Active point in garage
5	Garage	Active point in garage
6	Garage	Active point in garage
7	Remote parking spaces	Active point located on remote parking space
8	Driveway	Active point located on driveway
9	Driveway	Active point located on driveway
10	Driveway	Active point located on driveway
11	Remote parking spaces	Active point located on remote parking space
12	Remote parking spaces	Active point located on remote parking space
13	Remote parking spaces	Active point located on remote parking space
14	Driveway	Active point located on driveway
15	Driveway	Active point located on driveway
16	Driveway	Active point located on driveway
17	Remote parking spaces	Active point located on remote parking space
18	Remote parking spaces	Active point located on remote parking space
19	Driveway	Active point located on driveway
20	Remote parking spaces	Passive point located on remote parking space
21	Remote parking spaces	Passive point located on remote parking space
22	Remote parking spaces	Passive point located on remote parking space
23	Remote parking spaces	Passive point located on remote parking space
24	Remote parking spaces	Passive point located on remote parking space
25	Garage	Active point in garage
26	Garage	Active point in garage
27	Garage	Active point in garage
28	Garage	Active point in garage
29	Garage	Active point in garage
30	Garage	Active point in garage
31	Remote parking spaces	Passive point located on remote parking space
32	Driveway	Active point located on driveway
33	Driveway	Active point located on driveway
34	Remote parking spaces	Passive point located on remote parking space
35	Remote parking spaces	Passive point located on remote parking space
36	Remote parking spaces	Passive point located on remote parking space
37	Driveway	Active point located on driveway
38	Driveway	Active point located on driveway
39	Driveway	Active point located on driveway
40	Remote parking spaces	Passive point located on remote parking space
41	Remote parking spaces	Passive point located on remote parking space
42	Remote parking spaces	Passive point located on remote parking space
43	Driveway	Active point located on driveway
44	Driveway	Active point located on driveway
45	Driveway	Active point located on driveway
46	Driveway	Active point located on driveway
47	Garage	Active point in garage
48	Garage	Active point in garage
49	Garage	Active point in garage
50	Garage	Active point in garage
51	Driveway	Active point located on driveway
52	Driveway	Active point located on driveway
53	Garage	Active point in garage
54	Driveway	Active point located on driveway
55	Remote parking spaces	Passive point located on remote parking space
56	Driveway	Active point located on driveway
57	Driveway	Active point located on driveway
58	Remote parking spaces	Passive point located on remote parking space
59	Driveway	Active point located on driveway
60	Driveway	Active point located on driveway
61	Driveway	Active point located on driveway
62	Driveway	Active point located on driveway
63	Driveway	Active point located on driveway
64	Driveway	Active point located on driveway
65	Garage	Active point in garage
66	Garage	Active point in garage
67	Driveway	Active point located on driveway
68	Driveway	Active point located on driveway
69	Driveway	Active point located on driveway
70	Driveway	Active point located on driveway
71	Driveway	Active point located on driveway
72	Garage	Active point in garage
73	Driveway	Active point located on driveway
74	Driveway	Active point located on driveway
75	Garage	Active point in garage
76	Garage	Active point in garage
77	Garage	Active point in garage
78	Garage	Active point in garage
79	Garage	Active point in garage
80	Garage	Active point in garage
81	Garage	Active point in garage
82	Garage	Active point in garage
83	Garage	Active point in garage
84	Garage	Active point in garage
85	Garage	Active point in garage
86	Driveway	Active point located on driveway
87	Driveway	Active point located on driveway
88	Driveway	Active point located on driveway
89	Driveway	Active point located on driveway
90	Driveway	Active point located on driveway

Notes	
1)	100% of plots with a garage or driveway will have an active charging point either located within the garage or located on the driveway
2)	Of the 20 plots without a garage or driveway, 20% must have an active charging point (i.e. at least 4no. active points) - however we propose to provide active points to 6 of these 20 plots (i.e. 30%)
