WSCC Ecological Response to...

APPLICATION No.: P/64/13

PROPOSAL: Construction of rock revetment as a coastal scour mitigation measure

SITE: Foreshore, West Front Road, Pagham, West Sussex, PO21 4TB

GRID REF: 488651 / 96766

cc. Cllr. Tony Sutcliffe, WSCC

There is no ecological objection to the proposed works subject to the imposition of suitably worded conditions.

Notably, given the potential for impact on a nationally and internationally protected site Natural England has not objected subject to conditions. I support these conditions and have nothing additional to recommend.
