REF Application No. P/6/17/OUT

Dear Sir,

I am writing to express my strong objection to the proposed building of houses on the Hook Lane site. I cannot believe that the Council can support such a plan that will add significant traffic to what are already over crowded roads, that will put more pressure on local services such as doctors, dentists, hospitals and schools, and increase the pollution levels even further. There is also the serious risk of flooding until something is done about the sea defences. The whole project is clearly unsustainable. I appreciate the need for more housing but this part of the county is clearly not the place to put it until we have addressed the many local environmental issues. I have lived here for almost 20 years and seen the impact of over development and the loss of grade 2 farmland. It is not good for existing residents and will certainly not be good for newcomers to the area.

Yours Faithfully,

Peter and Madeleine Ferris
