2nd February 2017

Dear Sir

I would like to register my objection to planning proposals contained in P/6/17/OVT.

My reasons for objecting are many but the main one is the volume of traffic on the Pagham Road at peak times. This road is a B. Road and now has big jugosants from Barefoots farm (which also has planning in to expand) These break up the already damaged roads. Then there are many tractors etc and cyclist slowing the traffic down and there is no where to over-take. In the rush hour cars are nose to tail coming from Chichester.

These new houses will all have 2 cars or more the infrastructure will not cope with any more. The junction at Sefton Road to turn right will be impossible.

Secondly The schools and Doctors surgery p50

are full to bursting. The school has already had extra temporary classroom put up!

The Doctors already are unable to offer you an appointment for 2 weeks!

Thurdly Pagham is likely to flood as the water that was diverted to Pagham from Chichester has caused a spit to form which is causing the beach to be eroded. The field behind the village flood when we have alot of rain. So how will putting all these houses and concrete down help the whole area from flooding. This must not be allowed to happen.

Yours faithfully
