W/ Sussex PO21 3PT

Dear Sir/Madam

I am writing this letter to object to the houses being built on Hook Lane application number P/6/17/007. I do understand that more houses need to be built, but this idea about putting them on Hook Lane is a joke. Many times, in fact, I've lost count how many times I just couldn't get out of Hill Farm Dr. onto the Pagham Rd for traffic, summer time, or should I say when the caravans are open. It's a nightmare. When you have managed to get out then you have the problem of the volume of traffic on such a narrow road, it's a miracle there hasn't been a major accident. Twice in August me and my little boy were nearly killed

on the crossing by Tesco's Express, traffic
going too fast to stop a 30 m.p.h sign isn't
enough to slow traffic on this very busy road.
Please tell me how we are going to cope with
all this extra traffic, surely there must
be land with better roads to accommodate
these houses.

I have waited two weeks to see
a doctor, it's so worrying to me at 73 years
of age as to how long we will have to wait
with all these houses going up.

In June last year I spent all night
on a corridor in St Richards Hospital, have
you had that experience, I can tell you it's
awful, and this problem will only get worse.
Please, Please, have a good think about all
what you are planning to do.

Hoping you will oblige

MR H. CORNISH

RE-PLANNING APPLICATIONS

P/134/16/OUT (SEFTER ROAD)

P/140/16/OUT (PABHAM ROAD)

P/6/17/OUT (HOOK LANE)

DEAR SIR

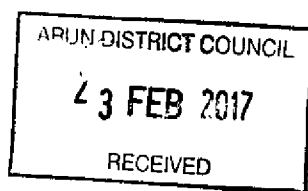

OBJECTION TO PLANNING AS ABOVE
I THINK IT WOULD BE UNSUSTAINABLE, THEY WOULD BE BUILT
ON A PROPOSED FLOOD PLANE, THE
ROAD STRUCTURE WOULD NOT
COPE WITH THE INCREASE IN
TRAFFIC ON THE SURROUNDING
COUNTY ROADS, ALSO THE DOCTORS,
DENTISTS SCHOOLS & HOSPITAL
WOULD NOT BE ABLE TO COPE,

AS AT THE PRESENT TIME THEY
STRUGGLE TO COPE NOW.

SO I ORDERED VERY STRONG BAY
TO PLANNING TO BE GIVEN TO
~~ANY~~ OF THE SITES

YOURS SINCERELY

20 CONIFER WAY
MILL FARM, PAGHAM ROAD
BOGNOR REGIS PO21 3NQ

22. FEB. 2017.

Dear Sir/Madam,

I wish to register an objection to the planning applications for: -

HOOK Lane P/6/17 OUT
PAGHAM ROAD P/140/16 OUT
SEFTER ROAD P/134/16 OUT.

All of these houses that are to be built in this area are far too many for a small village that has one country lane as its main way into the village; increased traffic would be unsustainable for such small roads.

These sites have a history of increased flooding and would lose the farmland that is used for growing vegetables etc; Surely with the U.K going into BREXIT, we would need this land.

What about building on "BROWN SITES" that are in our County?

Consideration should be given to our Local Infrastructure, such as Schools, Doctors Dentists and Hospitals, we do not have enough of these for the people already living in Pagham.

We cannot get appointments at the Doctors

Doctors:

and are having to wait far too long for Hospital appointments.

During the Summer months we have to contend with holiday traffic from Church Farm, whereby the cars speed through the village and the villagers have had to have speeding signs and Zebra Crossings constructed. At Mill Farm entrance they have had to have yellow Parking Lines painted, as the "OLDER PEOPLE" that live on Mill Farm are unable to get out due to far too much traffic already passing in Pagham Road; therefore extra Housing would be unsustainable, as additional traffic would cause further congestion.

I would employ you to give these Building Sites great consideration as they would cause no end of problems to the area and the people, not to mention the vast increase of people and traffic for such a small village

yours faithfully
