Madam, Sirs,

Re Proposed development in Rose Aitken
Nyctimber, Bognor. - Bognor Regis, W. S.E.

Please consider our plight. Due to the need of extra housing it has been proposed to destroy the peacefulness of our villages - not by little chunks as previously built, but by over 1,000 dwellings. It is divided into 3 sites, but these sites are a stone's throw away from each other.

We do not live in large properties, but modest dwellings, with modest jobs in roles. Thank

workers, call worker, retail persons.

Our fear of flooding from taking our farm
land is real & warranted. Pollution from
so much traffic, on roads that cannot cope
now. At present tractors & heavy articulated
lorries thunders down country lanes.

From personal experience, cars now park
on the pavement, over drives & yellow lines
let alone selfish folk who speed.

Oh yes - a new doctor's surgery is
mentioned - grand, but while do we find
these wonderful trained to-date doctors,
structures are easily put up, filling them w/
different patients - as with schools - St. Richards
hosp has come under threat of department
closure previously, they cannot take the
pressure of extra thousands of people.

Of course, new houses are needed for
our young people & small chunks is wholly

acceptable. The cost must be kept down for them - not to line the pockets of greedy developers.

It is not our fault that adequate building schemes were practiced under past - realising appropriate sites so as not to disrupt so many lives.

The thought of so many years of complete disruption is truly abhorrent - not confined to one area, but whole villages

I cannot write on a steep professional level quoting graphs, government policies facts & figures. I can only base my thoughts on how wrong this all seems to the inhabitants of our villages.

Holdest places, with folk working on the land shops, enjoying a peaceful place that we workers so hard to attain. I would add, so many people move from London to find a bit of peace. Is this fair.
