Subject: The proposed building of new housing in PAGHAM

Dear Sir or Madam

I being a resident of Pagham strongly object to the new proposed housing that will be reviewed by your 'Planning Committee' on April 26th 2017.

Do they not understand that an influx of new housing will bring mayhem to the area. Pagham is just not big enough to handle the situation.

Larger sewage facilities will be needed, the local shops will be over crowded, the roads will not be able to cope with extra traffic. There are not enough places in the schools as it is without bringing in more people. The doctors surgeries will be at breaking point.

I am not a selfish person but this is madness and will wreck the village of Pagham.

Please forward my comments onto the planning committee.

My regards
Michael Pierce (a resident of Pagham)
