REF. P/6/17/OUT

Dear Sir/Madam,

Here are just a few reasons why this proposed building in Hook Lane and surrounding areas must not be allowed to happen. Please don't let it.

What sold me my little terraced house was the price (all I could afford) but just as important to me, the beautiful sunsets from my window. That will all go, replaced by houses and cars, no, no, no. Wind turbines would make much more sense around here with the amount of wind we get.

I love my little garden, I try to

keep it pretty as well as natural enough for my hedgehogs (complete with houses) lovely birds, including woodpeckers who live on the proposed Selter road site by the scouts hut.

Also we hear the owls from there. We also have bats, wonderful to see them. Foxes run about here every night, bring their young, they will all be driven away, large trees are gradually being destroyed for building.

We have the great risk of flooding, my garden already floods with heavy rain, because of the way the road was built, just last month with one night of heavy rain my garden and path were covered. I have photos of it in flood. Road and garden.

As you have no plans for road improvements Pagham road will become the road of hell, it is bad enough now. I have been involved in near misses on this road, one with a police car, (Not our fault) very scary, stupid drivers, too many cars, can only get worse. Many people have to or want to cycle along Pagham road, possibly to work as they cannot afford a car or the bus fares, it is just not safe for them.

If you worked with the rich farmers there could be a cycle lane / footpath all along Pagham road on the other side of the hedge, like they do in other countries. The thought of another couple of thousand cars around the area is just horrendous, where are they going, no work to go to.

Doctors surgery's, already difficult to get an appointment when needed, shortage of doctors. What are you going to do about this.

All the extra hundreds of children, what are you going to do about schools.

The roads, cycle lanes and footpaths all have to be sorted before any of this crazy thoughtless building can possibly take place. Pagham is the wrong place, wrong time and you are causing too unnecessary worry and stress. Leave us alone.

By the way, whatever happened to getting people out of their cars, hence cycle lanes.

Yours sincerely
