Subject: Pagham Planning applications deadline May 30th

Dear Sir.

I am writing to object to all the planning applications for housing in Pagham at Sefter Rd, Hook Lane, Pagham Rd South of Summer Lane, Church Barton Farm, and also in North Bersted, Chalcraft Lane.

I am making the same reasons for objecting i.e. traffic chaos, lack of employment, lack of services, the likelihood of flooding, proximity to the internationally renowned Nature Reserve, loss of agricultural land and the senseless building of large houses.

This is a retirement area with only the need for some 1 and 2 bed homes, with a small outside space , for any downsizers.

This in turn would release family homes outside of Pagham but still in the area for those that have the need.

I feel that Arun D.C.have been unfair in the way their website is almost impossible to navigate for objections lodging.

I am fairly competent with computers but have decided that, due to the unrealistic deadline set, I would write a letter instead. My life is getting shorter by the day!

Thank you for accepting my objections and I look forward to a favourable outcome for Pagham.

Yours faithfully

Patricia Dawson (Ms)
