Hook Lane P/6/17/OUT

Pagham Road P/140/16/OUT

Church Barton P/6/17/OUT

23 April 2018

Dear *Members of the Planning Committee*

I wish to object very strongly to your support for the building of 280 dwellings in land off Sefter Rd. Hook Lane, Pagham Rd. and Church Barton House Pagham.

In particular the 280 homes on Sefter Rd means at least 560 extra cars on our local roads. Our local roads are crumbling everywhere, with the sight of large Pot Holes. Even those pot holes recently repaired are already breaking up. Could it be that the material used is inferior and not fit for the job?

Extra cars on our local roads will make everyone's journey a nightmare. Trying to exit a car from our home will become a nightmare.

I believe that the plans to build a new school have been withdrawn.

So more homes and more children needing schooling. Where will they go? Schools are already at breaking point with over full class rooms. How will this problem be solved?

Are Councillors backing all housing developments in order to improve the A27 fiasco?

Do any of the councillors actually live in the areas of Sefter Road, Hook Lane, Pagham Road? Will they share the disruption of the building of, trying to these homes and the misery of trying to get out of our driveway and roads to get to school and work?

In 2012, Aldwick experienced serious flooding. Many roads were impassable, the local fields were also flooded, those same fields are to be built on with concrete. Where will all the water go then?

Yours faithfully

C

MRS CATHERINE

CORDEROY
