To the Chief Planning Officer
Arun District Council
Maltravers Road
Littlehampton
BN17 2LF

Dear Sir,

I want to object most strongly to the proposed plans to build yet more homes in the Pagham/Rose Green area of your jurisdiction.

This area besides being an agricultural land, cannot handle over 800 more dwellings, the infrastructure is not able to handle this amount of dwellings. The traffic in the area is already more than the roads can handle - we are going to face gridlock at rush-hour & when school time occurs. Added to which the drains are old & cannot take more outfall. The surgeries are full to bursting as are the schools. Added to which the area is prone to flood.

Already I gather that North Binstead is more than likely to have an increase of building which is near to this area.

Please, please don't desecrate this lovely country area by turning it into a urban district that is not able to cope with the increased population for the reasons above

Yours sincerely
