Dear Sirs

Re planning applications :

P/134/16/OUT
P/140/16/OUT
P/6/17/OUT
P/25/17/OUT

Dear Sirs

Please note my objection to the above applications.

This area cannot possibly cope with such large scale developments. These will change the whole character of the area and infringe on the strategic gap turning us into an urban sprawl.

It seems to me that ADC have been directed by government to build an enormous number of houses per year and that in their panic they have allocated vast swathes of Pagham agricultural land for development. The local people are neither in need or want these developments, they do nothing to help the first time buyers nor the local workers who do not earn the money needed to buy a three or four bedroom house. The main areas of employment within Pagham are in agriculture or within Church Farm Caravan Park. So should the developments be given the green light then we have the threat of not only loosing the very land the locals work on but also that Church Farm will relocate leaving even more local people out of work. Madness.

Then we have all the problems with the infrastructure which have been well highlighted by the numerous concerned residents who have written to you.

I will feel very disappointed if these developments are allowed in the current numbers and totally let down by our district council who will have done nothing to stand up for our community.
