Subject: Re: P/140/16 OUT, P/25/17 OUT,P/6/17 OUT, P/134/16 OUT Pagham

Dear Mr Collins,
Thank you for email.

We are in receipt of the 'Letter of Claim'. This is receiving due and proper consideration by the Council and will be responded to separately.

With regard to sefter road application it is not currently the intention of the Council to refer this back to the committee.

The Hook Lane application was as you know deferred by the committee. It will be reconsidered by the committee at the first available opportunity.

I am also aware of your more recent email regarding the Chichester Local Plan review. The contents of your email are noted.

Please note your emails are being treated as representations on the various undetermined applications you quote. The Council will not be providing a bespoke response to each and every representation you submit. Please use the planning response email address so that any representations are acknowledged.

Regards
Karl Roberts

Dear Mr Roberts
As you know I act for Pagham Parish Council in these matters.
You will be aware of the Letter of Claim pursuant to Judicial Review Pre-Action Protocol (Annex A) dated 12/12/18 that ADC has received from my clients legal advisors in respect of P/140/16 OUT and their request that you reply to same by 18/12/18.
You will also be aware of my separate e mail of the same date requesting that P/134/16 OUT be returned to the DCC for reconsideration before any decision is issued (currently planned for 21/12/18) for the reasons stated and my request that the Council advise my clients as to your intentions regarding the determination of related applications P/6/17 OUT and P/25/17 OUT to which I have received no reply to date.

In the interests of avoiding further confusion and the hope of avoiding the potential need for further legal action in the future, can I suggest that you take the time to provide my clients with a full update as to the content and ongoing consideration of each of these applications by your officers and a response to my e mail dated 12/12/18 by the 18/12/18 as well. This is so that my clients may have fair and reasonable opportunity to comment on the ever changing material considerations before any further decisions are made by your officers or your Council regarding these applications and their related Draft S106 Agreements.

Thank you

Paul Collins BA (Hons) DipTP MRTPI
