I have been reading the correspondents between yourself, Paul Cann and Daniel o Shea. I stress the ditch at the rear of my field has been widened illegally by 10-15 feet. I assure you it will be replaced to its original size. I think Daniel is paying you lip service to you two, why has he not contacted me concerning this matter, because he knows I will not let them on my land.

As per your email below I expect you to uphold your comments about not granting permission until the drainage issues are sorted out. Paul Cann has already told me and emailed me that the ditch is not suitable at the moment. Nothing has changed or will change.

Why should they just start work without doing the Summer Lane improvement works (which I thought were a condition) and have proper planning approval. Leaving the local residents with a high risk of flooding, the works traffic will be extremely dangerous as there is no pavement.

When somebody gets hurt, it will be somebody's fault.

Hope to hear from you by return.

Thanks Len
