Dear Sir/Madam

Re: Planning Application P70/19/RES

We understand that Developers Drew Smith are objecting to TPOs on two Oak Trees on the land North of Summer Lane, Pagham. They have already badly damaged one with heavy machinery so will, no doubt, find an excuse to destroy said tree.

We strongly object to allowing their disgraceful disregard to well established trees which definitely should not be destroyed. If they are, then they must be made to replace them with mature indigenous oak trees of equal standing.

Yours sincerely
