Good afternoon Simon,

After discussing with our site manager, I can confirm that the substation has been set-out in accordance with the approved plans. Once we have submitted the updated S278 dwg, we will go on to submit the NMA for the slip road in front of the substation as advised.

Thanks.

Kind regards,

Daniel O'Shea
Planning Manager

Dear Daniel,

I have had further correspondence from a resident and he alleges that it is not just the substation driveway that is new but that the position of the substation has also moved by a few metres and is now in a position that is more visible to neighbours. I have compared the overlay plan that you provided with the approved plans and I can't see that its position has changed but the resident was quite clear and apparently has spoken with your site manager today. Can you comment please?

Simon.
