Dear Simon,

Apologies for the delayed response. I didn't realise we hadn't yet provided one.

Regarding WSCC Highway's comments, our Contracts Manager has assessed the rest of the CMP, and as the haul road is proposed in addition to the Summer Lane access, rather than instead of, the remainder of the CMP is still unchanged. The previously sent Method Statement (attached), should clarify how the haul road is to operate alongside the approved routing via Summer Lane.

Kind regards,

Daniel O'Shea  
Planning Manager

NOTE: Email originated outside of Vistry Group.

Dear Daniel,

I have had further WSCC Highway comments stating that:

*I've had a look at the approved CMP. Most of the approved document can remain as is. The traffic management plan would have to change though as that shows construction traffic using Summer Lane. The use of the alternate haul road presumably would result in all construction traffic being removed from Summer Lane. If this isn't the intention for the haul road, then it would be helpful to understand exactly how the haul road will operate alongside the approved routing via Summer Lane. Whilst I accept that there are seemingly few changes required to the approved CMP, in my view, there still appear to be some changes required. Can I ask that the applicant has another look at this.*

Can you respond please.

Kind Regards
