Dear Sir/Madam

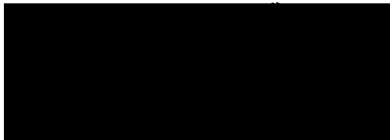

Ref P/75/11/CLP

The enclosed form and drawings are to replace the incorrect one already submitted for the above application, the photographs from the original application are still valid and I would ask be referred to.

As before, both matters are connected and becoming more urgent due to the ongoing leak. It is now 3 weeks since my first contact with your office and delays have crept in purely due to misunderstandings over the application process. I would as that the procedure be as swift as possible before further damage can occur to the property. I understand we are due some particularly nasty weather very soon.

Yours faithfully

Samantha Falconer
