Please find attached the two completed checklists.

To Show bins and refuse collection areas in the terms you may have been expecting is simply not possible for this proposal.

Little waste leaves the site but most is reused within the site and the storage of it is within the crate yards shown. The extent and arrangements for how this is used varies over the seasons depending on the products in season.

This is explained in the supporting reports.

Please can you confirm that the application can now be validated?

regards
