Dear Sir

re.Barfoots planning application P/76/16/PL

My partner and I are a bit confused with your outcry about the increase in HGV movement along the Pagham Road, stating that ugly factory units are not wanted, you continue to waffle on about slow moving traffic, residents and holiday tourists make it the most dangerous road in Sussex. We find this statement a bit rich, considering the new housing development that's been agreed from Summer Lane to the back of the Inglenook Hotel, also a far larger development being planned further through the village towards Church Farm, which will create far more traffic through the already dangerous part of the Pagham Road from Summer Lane to the junction with Hook Lane, we suggest you come along and survey this area of Pagham for 7 Days, you will find out for yourself that there is a far bigger problem with traffic in the village than the HGVs on the way to Chichester.

Yours sincerely
