Further to your communication that you sent at the end of October 2014 requesting details of Linear Drainage to our proposed driveway extension, please find attached an updated drawing showing the ACO drainage that South Coast Contractors Ltd (Arthur Bailey) intend to install to comply with your wishes.

I understand Arthur has already spoken to you on this matter and that a further payment will be required, by me, however, in an attempt to make the payment, we accessed the Arun District Council Planning Website quoting my reference number only to find that it was untraceable. I therefore need clarification of how to make the payment and how much to pay.

I would be grateful therefore if you could contact me as soon as possible either on;

Work email - [REDACTED]

Phone [REDACTED]

As this procedure has now dragged on for 7 months, I would appreciate your earliest possible attention on this matter as my contractor is keen to conclude the works.

Thanking you in anticipation,

Judi Legon
